

When it comes to something as important as losing weight, knowing what you're getting in a weight loss program is a paramount consideration. However, so many products today make so many claims that you need to exercise your mind before you can make the right choices for your body.

# you decide!

## ALL WEIGHT LOSS PROGRAMS ARE NOT CREATED EQUAL

When it comes to weight loss, it can be virtually impossible to separate the facts from the fads. Weight loss programs are big business — a US \$50 billion-dollar industry, in fact. With so many diet plans out there, how can a person tell which program is the best, which is easiest to follow, and fits with their lifestyle? And what about the impact on long-term health?

### MEASURING UP

How "good" a particular weight loss program is must be determined not only by its ability to cause weight loss, but

how well it matches up to consumer needs and delivers benefits. To show how GR<sup>2</sup> Control stands out when it comes to delivering overall user benefits, we compared it directly with several other leading weight loss programs.

What we found was interesting: While each program had its good points, none were as well thought out, easy to follow, or as safe and effective as GR<sup>2</sup> Control. And none utilized the same outstanding level of leading-edge science, technological expertise and premium quality as GNLD routinely incorporates into every product we make!

### CHARTING YOUR COURSE

The chart below spells out some of our findings, as popular weight loss programs are compared side by side. At GNLD, we have a long history of looking past trends and fads to the science behind particular products. The information found on the chart will help you to make more informed choices.

**The chart shows that GR<sup>2</sup> Control has a "Total user benefit" of 100%. That means GNLD delivers more of what people are looking for in a weight loss program!**

## Jewel lost 23 lbs., 27 inches in just 7 weeks!

"The GR<sup>2</sup> Control Weight Loss Program is truly amazing. In all of my years as a health professional, I've never experienced anything like this! Before I started the program, my jeans were tight and uncomfortable. I'd also developed rolls in my mid-section. My energy level was on a roller coaster, which was affecting my emotional state. I've been on GR<sup>2</sup> Control for 7 weeks and I've lost a total of 23 lbs.! Plus, I have much more energy than before. It's even given me greater mental focus. I feel completely invigorated. In fact, my physician was so impressed with my weight loss, now he's on the GR<sup>2</sup> Control program, too! Soon we'll both accomplish our weight loss goals!"
